## **CITY OF BIRMINGHAM - SUMMARY OF UNPERMITTED DISCHARGES**

## 10/1/17 to 9/30/2018

NOTE: Quantities shown in the column "Est. Volume" are ESTIMATED ONLY. These estimates are the County's best determination of the discharge volume, based upon site-determinable information and accepted estimating methods. However, such estimates are subject to a high number of variables which are completely beyond the County's control and which can have a significant effect upon the calculated amount. Therefore, these estimates are to be used for relative comparison only, not as actual discharge volumes.
